Work experience

17-04-2007 — 12-08-2008 **Graduation assignment for Siteseeing Internet Services (SIS).**

Combining modern multimedia and internet technologies to enhance museum visits and visitor involvement through a Virtual Museum. The Virtual Museum links a location-aware PDA tour, website and content management system. Resulting in a report and a working prototype of "PIA", the visitor's Personal Information Assistant which operates on a PDA.

In 2007 **Website design for Enkhuizer Notariaat**

Design of a website for a notary office, www.enkhuizernotariaat.nl/textpattern.

01-09-2006 — 31-12-2006 **Assignment for SMARTposition**

The design of a user interface that adds heartrate data and geodata to the training logs in SportLog. SportLog is a cooperative platform for athletes, coaches and staff of NOC*NSF, the Dutch Olympic Sports Federation.

01-07-2005 — 01-09-2005 **Freelance assignment for Carrosserie Elenbaas.**

Design of a pigeon transportation box to train young birds, an assignment for the body work company Elenbaas in Poortvliet.

01-02-2004 — 26-08-2004 **Graduation assignment for SolarNed B.V.**

Graduation assignment for the study Mechanical Engineering at the solar distributor company for BP, SolarNed B.V. in Amsterdam. The assignment included market research on current solar panel montage constructions and the design of a montage construction for use on flat and sloping roofs.

01-09-2003 — 30-01-2004 **Internship at Sidmar N.V.**

My second internship for the study Mechanical Engineering was fulfilled at the steel company Sidmar in Gent (Belgium). The primary assignment was to evaluate the current climate control installation of the main workshop and to suggest improvements. Secondary activities were small climate control projects for buildings like electric sub-stations.

01-02-2002 — 30-06-2003 **Internship at Morotech B.V.**

My first internship was followed at Morotech in Zwaag, a supplier of robot cells for welding and handling activities. My work consisted of drawing robot cells in AutoCad, writing quotations, setting up an intranet, programming robots and teaching robot programming courses.

01-09-2001 — 01-07-2003 **Course manager at EP:Beerepoot Computers**

As a Saturday job, I taught computer courses to individuals and small companies for EP:Beerepoot Computers, a computer reseller and service provider.

From 1995 — 2001

Various jobs in the agricultural sector, in a supermarket and in the catering industry, among which two months in a restaurant on Mallorca.

Education and qualifications

01-09-2004 — 12-06-2008	Master Industrial Design Engineering, University of Twente.
01-09-2000 — 26-08-2004	Mechanical Engineering, INHOLLAND University of Applied Sciences in Alkmaar.

Secondary activities

01-10-2005 till 01-12-2006 **Secretary of Twente Brass, Brass band from the University of Twente.**

General management tasks, taking minutes, administering ingoing and outgoing mail, designing posters and flyers for different activities.

01-09-2001 till 01-03-2004 **Mutirão**

The Mondias foundation organizes development and cultivation trips for young people to Brazil. My group consisted of around 40 people. In two years time the group itself gathers the necessary financial backing for the trip and the associated development activities by organizing activities, sponsorship and working. Additionally they study the Portuguese language and the Brazilian culture.

During 5 weeks in Brazil, the group visit favelas (slums) and assists in local projects. After the first week the group moves inland and is split up into small groups to work on projects like building homes together with local groups of adolescents.

Afterwards a reverse exchange program was organized to give some of the Brazilians the opportunity to visit Holland and experience the Dutch culture.

Interests

- Running
- Playing the Cornet
- Promoting the culture and heritage of West-Friesland
